## CSC Welcomes 31 New Counties to eRecording Network

WILMINGTON, Del.—CSC, a leader in the electronic document recording (eRecording) industry, is pleased to announce the addition of 31 new counties in 16 states to its growing portfolio since the third quarter of 2018. By providing a secure, web-based eRecording solution, county recording offices and document submitters can save time and streamline their workflows with the help of CSC.

The new counties include:

- |                   |               |                          |                        |
|-------------------|---------------|--------------------------|------------------------|
| Ashley, AR        | Grady, OK     | Moultrie, IL             | Town of Winchester, CT |
| Billings, ND      | Greenwood, SC | Muskingum, OH            | Traill, ND             |
| Burke, NC         | Gulf, FL      | Rolette, ND              | Treutlen, GA           |
| Carroll, IL       | Henry, IL     | San Luis Obispo, CA      | Wells, ND              |
| Chowan, NC        | LaMoure, ND   | Sanders, MT              | White, IL              |
| Clayton, GA       | Lavaca, TX    | Sargent, ND              | White Pine, NV         |
| Coleman, TX       | McNairy, TN   | Scott, IN                | Worth, GA              |
| Golden Valley, ND | Mercer, ND    | Town of North Canaan, CT |                        |

“CSC provides a secure and dependable eRecording solution along with unparalleled customer service that allows our county clients to focus on what is most important to them—their constituents,” says Mark Rosser, vice president for CSC. “As the first to market with an eRecording solution, CSC understands what recording offices need to be successful, and we look forward to providing them with the best possible solutions and service on the market today.”

CSC’s eRecording solutions currently cover 244,746,360 United States residents. The full list of counties is available at [erecording.com](http://erecording.com).

## About CSC

CSC® provides a web-based document recording (eRecording) solution that allows document submitters, including title companies, banks, and law firms, to electronically record real estate documents with county offices throughout the United States. Our system bridges the gap between submitters and county offices, and enables easier document creation on the submitter side and faster recordation, indexing, and acknowledgment on the recorder side. CSC was first to electronically record in the U.S., and our services remain the benchmark for speed, efficiency, and security. For more on how CSC can improve the way you work, visit [erecording.com](http://erecording.com).
