About CSC

CSC® provides a web-based document recording (eRecording) solution that allows document submitters, including title companies, banks, and law firms, to electronically record real estate documents with county offices throughout the United States. Our system bridges the gap between submitters and county offices, and enables easier document creation on the submitter side and faster recordation, indexing, and acknowledgment on the recorder side. CSC was first to electronically record in the U.S., and our services remain the benchmark for speed, efficiency, and security. For more on how CSC can improve the way you work, visit erecording.com.
